MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Faris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at swiden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Deblity, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Contusion of Heas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Bolitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous bebility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangors to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepala, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Perniclous but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

Society,
DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Network System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devas-tations of those terrific maladies which result from Indiscre-tion! Such persons, before contamulatine.

MARRIAGE,
should reflect that a sound mind and body are the most necessary requisites to promote conhubial happiness. Indeed,
without this, the journey through life becomes a weary pligrimage; the prospect heurly darkens to the view; the mind
becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but

and with our own. Let no faise delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprefessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—imitvibuals destitute of knowledge, name, and character—pediars shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifting month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can cure you. To those unacquainted with his reputation the deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

IN accordance with what is believed to be a general wish and expectation of the Methodist public, the proprietors of the Herald have determined to issue, during the approaching General Conference in Boston, a DAILY ZION'S HERALD.

approaching General Conference in Boston, a DAILY ZI-ON'S HERALD.

The main design will be to publish the proceedings and documents of the General Conference. Especial pains will be taken, therefore, to give full and accurate reports of the sayings and doings of this important body, and of the various anniversary meetings that may occur during the session. The editor intends continuing his "Characteristic Notes," which were received with so much favor in 1844 and '48. These "Notes," besides observations on the proceedings of the Conference, will embrace Personal Sketches of some of its principal members and visiters.

TERMS.—For a single copy for the session, \$1. The Daily will be issued at least five werks, or until the adjournment of the Conference, The first number will be issued on Monday, May 3d, and will contain the lirst day's proceedings of the Conference, a complete list of the Delegates, &c.

The Public Printing.

As we have no expectations of patronage from any department of the general government, we look on the contest now raging among the several journals of this city with the eye of calm and disinterested observers.

There are some very good printers in this city who do not conduct partisan journals, and who would faithfully and skilfully execute the work; but as it is not good mechanics, but good demagogue journalists, who are needed, these of course stand no chance in the scramble.

The Southern Press is cool in its way of talking on the subject, claiming a title to much, but hoping little. We quote from its columns:

"We have such an abiding conviction of our own political integrity that we would risk the receipt of the executive printing, of which we are deprived in violation of law—we would accept half the Congress printing, and half the Census printing at good prices, and still fancy ourselves quite as pure and patriotic as any of the gentle-men who are for Democratic reunion. Besides, if this public printing is so corrupting, we protest against giving so much to other papers that must be more frail than us. The National Intelligencer has a fat job of printing the old debates of Congress. The Globe has a fat job of printing the current debates. In addition to that, it has, with only some three hundred subscribers, the printing of the proceedings of the Senate, at seven dollars a column-and this by the acquiescence of our Southern friends. The Republic has the executive printing by the favor of the President. The Union has the same thing by his violation of the law at our expense; and both are now to get the printing of Congress by the favor of a committee and another violation of law. We protest against corrupting them so much, and propose to save them from the calamity of half of it, by taking the money ourselves, whose virtue is invincible and unsuspected."

Mr. Stanly's Letter. .

The Louisville Courier remarks, with reference to the recent letter of the Hon. Mr. Stanly, that "it should cause to tingle with shame the cheeks of those Whig editors who, in order to advance the interests of other gentlemen who have been named in connexion with the Presidency, have been perseveringly industrious in misrepresenting the position and views of the glorious old soldier and patriot Gen. Scott. As we have repeatedly stated, Gen. Scott's position in regard to the Compromise is as well known as Henry Clay's; and the design of those who are making and keeping up such a clamor, is not to learn his views, (with which they pretend to be unacquainted,) but simply to injure him while they re engaged in the vain effort to prevent his nomination by the Whig National Convention. The evidence of Mr. Stanly is more valuable because he is in favor of the nomination of Mr. Fillmore, but yet is not willing to stand quietly by and see the old hero basely slandered and

The Public Schools of Washington.

The Intelligencer states that petitions to Congress for aid to the public schools of this city have been circulating during the past week, and have obtained many signatures. We cannot, the editors remark, but think this object is one of the most legitimate to which the care of our only legislature can be directed; for hitherto nothing has been done, though much has been long talked of by the members of various Congresses for the Washington, or domiciled here, require, equally knowledge of which, if the soul be deprived, says lic lands, the property of the whole people, are lavishly applied to the purposes of canal and railroad locomotion in particular States, surely the District of Columbia ought not to be forgotten when she presents a claim so sacred as that under consideration.

M. Kossuth.

This gentleman left our city for the North on Saturday. We have never seen him; and now, alas! we never shall. The New York Daily Times says that he has "exercised the most marked FORBEABANCE towards Mr. Clay in regard to his opposition to his (Kossuth's) policy and conduct." We are grateful to him: for now we nope Mr. Clay has many days to live.

THE CUMBERLAND COAL MONOPOLY. - The Cumberland Coal and Iron Company, recently chartered by the legislature of Maryland, has efected a large reduction on the tolls for the transportation of their coals. The Baltimore and Ohio Railroad Company have reduced the charge for transportation from Cumberland to the wharves of Baltimore to \$1.75 per ton. This Simon's bay, Africa, on the 28th day of Februreduction, it is believed, insured the delivery of ary. Fourhundred and fifty-four persons are supcoal affoat at prices which will command an almost unlimited market. A similar reduction on the Chesapeake and Ohio canal from Cumberland to Alexandria will, of course, follow; which, together with the enormous cash capital of the with great success. company, exceeding one million dollars, will constitute the Cumberland Coal and Iron Company a rival that may well be apprehended by the mammoth anthracite companies of New York and Pennsylvania. The company contracts to give egular employment to one hundred cars of the eral approval-that some years of quiet are in Baltimore and Ohio Railroad Company per day. Lines of canal barges are being established. which will convey coal through the Chesapeake and Delaware canal from Baltimore to Philadelchia for from 60 to 70 cents per ton, and through the Delaware and Raritan canal to New York for from \$1 to \$1.25 per ton.

HENRY CLAY. - The Richmond Republican says: "We met a few days ago with an old gentleman from Hanover of the same age with Henry Clay. and who was raised within four miles of Mr. lay's parental residence. They were also schoolmates together. The old gentleman said that Henry was one of the best boys he ever knew: that he never had a quarrel with a schoolmate and was a quiet, gentlemanly lad-not very smart at marbles, but a good deal ahead of the schoolmaster himself in arithmetic, &c. On being told by a gentleman present that he ought to go to Washington and see Mr. Clay, the veteran replied that he would'nt go to Washington to see the greatest man that was ever created."

The Hartford Time's says "a horse ran furiusly on the walk." If the horse was on a walk how could be run?

There were 6,089 deaths in New Jersey last year, of which 2,015 were under five years old.

There are more insane women than men. The proportion is about 8 to 7.

Later from Buenos Ayres.

New York, April 18.

An arrival this afternoon brings Buenos Ayres dates of March 16. M. Vincent Lopez had been appointed provisional governor, and the appointment was extremely popular. The American consul made the first resolute resistance against the pillages in the city after the defeat of Rosas. With a force of six marines he shot down two and put to flight fifty of the plunderers. His example was soon followed by others.

Movements of Kossuth.

PHILADELPHIA, April 18. Kossuth arrived in this city by the Baltimore train yesterday afternoon at half-past 5 o'clock. He was hurried immediately to the Walnut street wharf, and started North in the pilot line, which was delayed for him ten minutes beyond its usual time. No excitement was manifested, as he passed through without being known. Kossuth was to remain at Burlington until Monday morning, where he designed to attend church to-day, and dine by invitation with Bishop Doane. His baggage was sent to New York this afternoon by the pilot line. He was accompanied from here

by a committee from the authorities of Trenton. Death from Sonnambulism.
